

Have old V2-LB SF₆ gas interrupters still on your system?

Have your load currents now exceeded the V2-LB interrupters' 600 Amp load break rating?

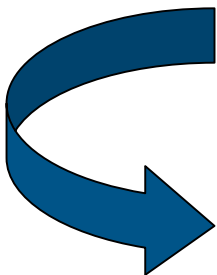

Southern States has the solution to your problem—replacement of the V2-LB interrupters with the **LLS-II Load and Line Switcher, the single gap per phase SF₆ gas full load break (up to 3000 Amp)/loop break (up to 3000 Amp)/line drop (up to 300 Amp) interrupter which can be installed on virtually any manufacturer's vertical break switch.**
